

14th June, 2016

Dear Andre,

At this momentous juncture, just a few days before the opening of Leeu Estates, we write to thank you profusely and convey our appreciation for the painstaking planning and execution of all your work which has led to transforming a part of the Franschhoek Valley. Hopefully this has enriched our lives and will bring many happy memories to all around us.

Looking at Leeu Estates, Leeu House, Tuk Tuk and LQF, words cannot describe my gratitude, as so many of you have gone beyond the call of duty to get to where we are. As you know, we, at Leeu Collection, have a mantra of attention to detail and I have seen with my two eyes that this was applied to every aspect, from project execution, landscaping, décor, culinary, wine, service and so on.

Thank you for your enthusiasm in creating what I believe will be one of Franschhoek's icons. You have helped to establish something special and unique. And that is why I would like to thank each and everyone involved in this project for their attentiveness and efficiency. The commitment you showed towards Leeu Estates shines through in the final product.

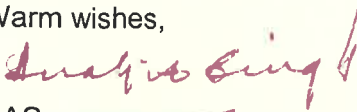

We plan to celebrate with you later this year on completion of the Estate. The focus now has to be to welcome our first guests and show them what the Leeu experience is all about followed by completion of the VO / D side.

This is a proud moment to see years of hard work turning into a beautiful reality. And you were part of that!

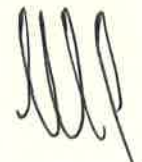

God bless, thank you, thank you Franschhoek and this beautiful country and its beautiful people.

Joining me in this appreciation are Hector and Matthew.

Warm wishes,

BAS

Hector
